

Welcome to Quantum Healing

Quantum Healing Class

Good day and welcome to this Quantum Healing Course. You have just taken the steps to transform your life and the lives of the clients you heal. Quantum healing can be used on human, animals of all sizes and plants. Quantum healing is based in the quantum field and is pure energy. Quantum is cellular energy and helps to get to the root cause of what is going on. It is very strong and powerful. I recommend small doses for animals and short sessions for humans, until you have practiced enough with confidence. Tuning into the higher self or your spirit team will definitely help you with Quantum healing.

I use all of my guides and source to guide the healing and just how much each client needs in one session. If too much is given in a session the person could feel, headaches, lightheaded, dizzy, and lots of pressure, or heaviness. These will definitely go away but it's ok to let them know that it's important to talk with your clients after to see how they feel. Offer some juice or water or deep breathing, the breathing helps the energy move within the body. It may take more than one session for the quantum. It's hard to determine before you even get started

Quantum can be given in person or long distance. If you would like to ask for a picture of the person, please do. You can just ask for just the name too.

This picture shows you what Quantum is put forth into another person.

Ball of Love Energy

Since quantum is just energy, we are going to first start by creating a ball of love energy and then giving it to ourselves.

To create a ball of energy you're going to hold out your left hand and ask please place a ball of energy in your hand. As you finish saying this you will feel the energy in your left hand, it can feel heavy or light depending how you feel energy. Once you feel the energy ball in your hand, begin putting all the things you want from this course in the ball. In this ball of energy, I put in knowledge and understanding of all that is taught today. Put as much as you like into this ball. Once you're done say" please transfer this energy to my right hand please" You should feel the energy transfer into your right hand now. Now bring the ball up to your crown chakra on top of your head. Say" please put this ball of energy into my crown please" feel the ball enter your crown and feel the energy flow down through your head and into the rest of your body. You can put your hand down after you feel the ball enter your head.

How did that feel?

Did you feel an energy surge?

Did you feel heat?

Did you feel the energy travel within your body?

The first time I did this I felt the energy sliding down the internals of my body, then I felt lots of energy.

If you aren't sure that you felt anything you can try it again or move onto the first section and try the first key.

Before we go the first key, I recommend that you not draw the symbols right on your palms. This may create a very strong tingling sensation that will linger for a long while and may stop you from feeling the symbols you're going to learn today.

There is no limit with quantum healing then you will have access to that symbol for ever.

As we get going through this course you can say the names of the keys once to activate them. I will walk you through everything step by step. If you need help all my info is at the end, and I will be able to answer any questions you may have.

1st Key

The first key is the Physical Pain Key

The physical pain key is about physical pain in the body

*This key will help you or your client to heal physical ailments

*It will help look back at your life from a distance.

*Connect to life experiences

*Deep breathing

*Vitality

*Digestive

*Seeing past event related to the pain

Chakra healing

*Letting go of fear

This key is limitless; other things will be shown to you the more you use it.

The first step in the Physical Pain key is to put it into your database

Say Please Place the physical Pain Key into my Left hand please, please copy and download the Physical Pain Key into my right hand please

Take note of how your hand feels

*Is the key heavy

*Is it light

*Do you see the energy related to it?

Is it flat or round

*If you don't see or sense anything not to worry you will.

You may feel the energy jump right into your right hand or you may feel the energy of the Key move all around your body.

Now you're going to disconnect from the energy by washing your hands in light.

You can lower your arm once you feel it inter into your body.

If you're using this on you or a client and let's, say that the client has a sore knee. You can say "please place the Physical pain key in my right hand please then put your right hand on your or the client's knee. Or you can put your hand on the knee and then ask for the key to go to the knee. It all works the same. Your intention is KEY.

Once you have the symbol or key downloaded you don't need to copy and transfer it anymore, you simply just call it in.

Amplify the power

Now that you have the Key in both hands, I want you to turn your hands sideways, so your palms are facing each other. Don't touch the palms together though. Now I want you to say Quantum key again, then again. How does it feel? Did the energy change? Is it stronger?

Once you're done, I want you to ***disconnect the power***. Just swipe your palms together, washing your hands in light, and disconnect.

2nd Key

The second key is the **Emotion Key**

*This key can help with the subconscious mind.

*Pure life

* Helps with grief when put with Forgiveness key

*Clearing the subconscious block

*Bringing out things that hold you back to the surface

*Tap into the universe

*Pure potential, no limitations

This is the Emotion Key

The first step for this key is to get it into your database.

Please download the Emotion key

What does it feel like?

Is it heavy or light?

Is it flat or round

Let's put the Source Key into your database

Please place the Emotion Key into my Left hand please, please copy and download the Emotion Key into my right hand please.

If you didn't feel it, sense it or see it do it again. With practice you will get it.

Now that you have the Key in both hands, I want you to turn your hands sideways, so your palms are facing each other. Don't touch the palms together though. Now I want you to say Quantum key again, then again. How does it feel? Did the energy change? Is it stronger?

Once you're done, I want you to ***disconnect the power***. Just swipe your palms together, washing your hands in light, and disconnect.

3rd Key

The third key is the **Forgiveness Key**

This key helps to let go of frustration

- *Release energy attached to events, or circumstances

- *Allows inner peace

- *Let's your body relax

- *Allows you to let go of attachment

Let's download this key

Please place the forgiveness Key into my Left hand please, please copy and download the forgiveness Key into my right hand please.

How does it feel? Is it heavy or light?

Is it flat or round? Is it hot or cold? Does it have shape?

Now that you have the Key in both hands, I want you to turn your hands sideways, so your palms are facing each other. Don't touch the palms together though. Now I want you to say Quantum key again, then again. How does it feel? Did the energy change? Is it stronger?

Once you're done, I want you to ***disconnect the power***. Just swipe your palms together, washing your hands in light, and disconnect.

Let's play a game

Place the physical pain key in one hand, and in the other hand place the forgiveness key and emotional key.

How does that feel?

Now remove the forgiveness key and place it in the other hand.

Disconnect the power.

Source Key

The Source Key represents the creator of the universe, God, or whatever you'd like to reference it as.

The Source key is Divine Love, Healing, and creation. You can amplify this power, but it may be strong enough of it's won for you.

You can always use this energy as it is there to help you bring in absolute love to everything.

Mix it in with the other keys to see what they do for you.

It gives Guidance not only to the client but you as well.

Works for Spiritual, Mental, Emotional, Physical
Cellular level.

Let's put the Source Key into your database

Please place the Source Key into my Let hand please, please copy and download the Source Key into my right hand please.

How does it feel? Is it heavy or light?

Now that you have the Key in both hands, I want you to turn your hands sideways, so your palms are facing each other. Don't touch the palms together though. Now I want you to say Quantum key again, then again. How does it feel? Did the energy change? Is it stronger?

I want you to say quantum key two more times in a row.

Now play with the energy, however you choose.

Once you're done, I want you to ***disconnect the power***. Just swipe your palms together, washing your hands in light, and disconnect.

Building the power works for all the keys not just this one, you can amplify it just by asking, by name or by intention.

Chakra Balance

You have 7 main chakras in your body. They run from the top of your head to the base of your spine. Crown, third eye, throat, heart, solar plexus, sacral, and root chakra. To do the shocker balance you're going to ask for source light to be placed in both of your hands. You're going to place one hand on your crown, the other hand is going to go on your third eye. Once you start this process you will move your hand from the third eye when guided. It will travel down the rest of the chakras in descending order. Third eye to throat, throat to heart, heart solar plexus, solar plexus to sacral, and sacral to root. When you're done you can wash your hands and light.

Ask these questions

Do I need a chakra balance?

Once or twice- Out of alignment, out of balance

Grounding Plate

Grounding plate is a series of circular plates that sit underneath the feet. It allows us to configure runs on the plates which creates immense grounding. The grounding will hold strong to the persons legs making them feel heavier. To configure the plates, you're going to envision a series of disks stacked upon each other that you can rotate. Each plate

has a series of codes light language or like codes on it. Once you turn start to rotate the discs, you will feel them click into place. This is how you know that you have the right configuration for the right person.

**CAN BE ROTATED
CLOCKWISE OR
COUNTER CLOCKWISE**

Portal Key

This key allows you to remove things from other dimensions, sending back to where it belongs.

To use, just place over the area of the body hold the trauma, turn the key clockwise $\frac{1}{4}$ turn.

Once the area is clear, turn the key counter clockwise $\frac{1}{4}$ turn.

PORTAL KEY

Quantum Healing on Animals

House Pets

You can use all keys on animals. Once you have done a healing on animals you may notice that the animal is wobbly or staggering. This is normal, they are processing the energy. With animals just doing short sessions is best. You can give two small sessions a day and access the animal after each session.

When it comes to where to put your hands on the animals for quantum healing, it's very basic.

Anxiety- chest area.

Aliments- On the aliment (knee, hip, foot, ear, back, etc.)

For scared dogs or cats – hand on head –hand on chest

For animals that don't sit still – just sit by the animal and send the quantum to them.

One of my students had friends' dog that was terrified of thunder, the dog wore a Thunder vest all the time to help keep him calm. The vest barely worked, and the dog had very high anxiety. I told her that the dog in a past life was in a war zone and the bombs going off set him off, just as little things in this life did. I told her 1 she needed my course, and 2 that she should do the quantum key on the dog. I know it's not needed unless guided to use. I was guided. She did two short sessions on this dog and after the first one the dog didn't need the vest anymore. And after the second session the dog was no longer anxious.

Quantum on Livestock

Using Quantum on livestock is much like doing it on house pets except on a larger scale. Livestock can process energy differently than both house pets and humans.

You can use all the keys on livestock, but you still need to pay attention to how long to do it for.

Use caution around large animals. Make sure you're aware of your surroundings before entering into pens or stalls.

Horse- For horses you can simply place your hands on the animal and bring up the key you want to use. If you're not keen on touching the horse for whatever the reason, simply stand by the animal and call up the key you want to use. You can direct your palms toward the animal or simply sit still.

Make sure the animal is calm and relaxed before touching the animal.

Cows- Cows are similar to Horses but are more skittish at times.

If you're not able to touch the animal simply stand close and send it to the animal. We're not there to cause distress to any animal.

All other animals are basically the same, the smaller the livestock gets you may not need the quantum master key. You can always ask what key is needed.

Plants- For working with plants you won't need the Quantum master key at all. You can use the keys for seeds before planting them. You can use the keys for the soil. You can use the keys for your water. You can use the keys over your food.

I use a form of quantum on my water I drink; it dissolves the fluoride in the water after filtering it.

Food -Lay your hands over the plate or dish and add in the key that your drawn to.

if you're working with seeds for outdoors, you can place the seeds in your hand and add the key that you're drawn to add. You can put your

hands in the soil and add the key that you're drawn. You can also add the energy into your plant so once every other day to encourage an abundant crop. You can do this on house plants as well.

- water holds memory of what we ask it to do, how we feel, or what we project. Wrap your hands around a glass of water set your intention, and then add in the key that you're drawn to put in.

You can also add in source light to amplify the energy in the water.

Personal Items -for personal items like cards, crystals, pendulums, and anything else that is of value to you, you can use the keys to clear, charge, or activate for yourself or others.

Quantum Jumping/ Manifesting

The two cup technique combines ideas behind quantum or dimensional jumping with subconscious mind

All you need are:

- Two identical glasses or cups
- Water
- Sticky notes
- A pen
- A great attitude

Steps:

1. Choose something specific you want to manifest. Such as, a new job, \$100 extra in your bank account, a vacation, an opportunity to collaborate as an artist, etc.
2. Fill just one cup with water.

3. Label the cups, current situation and the other cup
Situation I desire to see myself in, or desired situation.
4. On the cup with water, based on your intention, write out where you are right now. Say if your intention is to find a fulfilling job, write something like “*my current job is unsatisfactory.*”
5. On the cup with no water, write what you would like to manifest, such as “*I got a phone call from my favorite company offering me a high-paying job.*” You can be as specific or as vague as you wish, but remember that every word or omitting a word matters when it comes to manifestation. Ask exactly for what you want.
6. Hold the cup with water in your hands. Close your eyes, and think about how your current not satisfactory situation makes you feel. Send all of your negative emotions concerning this situation into the water.
7. Pour the water from the first cup into the second cup. By doing so, you are starting to transmute negative into positive.
8. Hold the second cup (the one that has what you want to manifest written on it) and meditate for a few minutes imagining how it would feel to receive what you want. Feel the joy, the satisfaction, and any other positive emotions that come up.
9. Drink every last drop and feel happy and excited that you have now attracted to you the situation, resources, and events that will lead you to the exact reality you desire.

10. Rip up the other label, hold on to the desired label. That's it. You're done. You just shifted your reality, jumped dimensions.

How to Activate the FR Symbol ?

Chant its name thrice or draw or visualize it on the Reiki Box or the person you are sending healing to. Fusion works very quickly compared to other symbols because of mixed energies and people connect easily with this symbol.

There is no correct way of drawing the symbol. Any stroke can be drawn first (let your intuition guide you!). The Fusion has a consciousness of its own and can also be used for healing, meditation etc.

How to Attune to the Symbol?

Self attunement works best in Fusion Reiki. We need to get meditative for 15 – 20 minutes. If required put on some light meditative or healing music. Take 3 deep breaths and say “I would like to get myself attuned to Fusion Reiki” thrice. Stare at the symbol for 10 minutes or so till the time you have absorbed each and every stroke of the symbol.

You might feel light headed or feel some tingling sensation all over your body; it is the energy entering your body. Once you think you have “absorbed” the symbol, take a pen and a piece of paper and start drawing the symbol without looking at it. Don't worry your intuition will guide you to draw the symbol. Draw the symbol 6 times and now you are attuned to the Fusion Symbol. You can use the symbol any place and anywhere, you

will be surprised how fast and effectively it works. It can help you in getting rid of pain , to move traffic or anything which is for the greatest and the highest good of everyone.

Introduction to Fusion Reiki

(Symbol photograph: Fusion as received by Dr. Storm, artwork by Siv Breines of Norway)

On Saturday 25 November, 2000, during a group attunement for the members of the Reiki Revolution and the

e-groups discussion list of the same name, Dr. Jason Storm received the following symbol and instructions for

its use. The symbol gave its name simply as "Fusion" and is a mixture of the energies of Usui Reiki, Karuna,

Seichim, and Tao Tian An Mian Chi Gong. This symbol is self-attuning, and anyone of any level, background,

belief, or state of being can become attuned to the energies of this very potent symbol.

After you have been attuned to Fusion, you will find your High Sense Perception greatly amplified and quite

easy to develop. To use the energies of Fusion in Reiki treatments simply say the name of the symbol and/or draw it (or visualize it) on the client receiving the energies and allow it to flow. Most people find they connect easily and instantly with Fusion, its energy is greatly amplified over any of the other styles alone. Fusion works VERY QUICKLY, typically requiring only about one third the amount of time of the other styles alone, and the attunement is likely to pass to and through you very quickly as well. This is normal. IT IS MOST EFFECTIVE when used in distant treatment and attunements. The physical connection of a direct, hands-on treatment slows the energy down a little bit, but you should experiment for yourself and find the techniques that work best for you with this very potent power source. There is no stroke order in drawing this symbol, as to intuitively seek the drawing order is part of the attunement and accessing process. Let it show you the way. Fusion has a consciousness of its own and requires practically no effort of any kind to utilize in healing, meditation, manifesting (magick), blessing, and cleansing. I encourage you to experiment and find new uses for Fusion, and share them with others. I have been told there is a vast storehouse of knowledge contained in this symbol and these energies. Many new techniques will surely emerge.

I fully empower and authorize you to use this symbol, these energies, and the name "Fusion Reiki" in every way you see fit,

Bright blessings to you and may your journey be filled with love, light, and peace always!

Namaste,

Rev. Jason Storm

Self-Attunement Instructions

Please note that this is my own method for attuning yourself and another person to Fusion Reiki. I have developed this method because there is no stronger attunement

or healing that I have passed other than the ones that have come from my higher self. Allowing your higher self to attune is what allows a person to receive energies that feel strong and powerful. This method allows you a way to get out of the way of the energy and what it has to do. This is a method that is based on the principle of you standing aside and allowing the universal energy to take its course and not be dampened by the individual. As you do your attunement I will ask you to stare at the symbol (that is on the title page). So once you are ready to begin make sure it is on the screen in front of you or printed out and in a place where you will be able to gaze upon it.

First please get into a relaxed state. Start by sitting in a comfortable position with feet flat on the floor. Next, take a deep breath in through your nose, hold for a count of four, take a deep breath out through your mouth (pushing all air out of your lungs), and hold for a count of four again. Repeat this a few times until you feel adequately relaxed.

Repeat this out loud: "My beloved higher self, please surround me with the violet flame"

Visualize your whole body surrounded by a violet flame. See it, feel it, hear it

crackling all around you. See it burning up any negative energy that is around you or within you.

Repeat this out loud: "My beloved higher self, please attune me to Fusion Reiki"

Now, look at the symbol. Imagine that there is energy emanating from the symbol.

Imagine this energy is coming off the symbol, flowing towards you and filling you.

Visualize this energy entering through the top of your head and filling your whole body until it over flows covering you in its energy. Imagine the energy is shimmering and bright and it makes you glow brightly.

As you do the above say "I AM attuned to Fusion Reiki" three times out loud.

Visualize that you are standing in front of you and now begin to draw the symbol

your self that is in front of you. Draw the symbol three times each time feeling the

energy stronger and stronger. Look at the symbol on your screen or printed out

paper as your guide. There is no specific right way or wrong way to draw the symbol.

It is meant to be drawn in an intuitive way, allowing your higher self to guide you.

However you feel guided to draw the symbol, follow that guidance.

Take a little bit of time and just feel the energy. Feel the energy making you tingle.

Take as long as you would like to feel this energy and now

that at any time you can repeat three times “I AM Fusion Reiki” and be engulfed in this energy again.

The Fusion Symbol will always bring you good luck, healing, protection, and guidance.

Namaste.

Attuning Another to Fusion

I recommend that you use the same method that I use when I attune someone. First make sure you are grounded. Please consider also using protection even if it is just by asking your own I AM presence to surround you with the White Tube of Light. You can do so by saying out loud “I AM presence please draw down and surround me with the White Tube of Light.” Then just visualize white light coming from the heart of your I AM presence which is above you and visualize this forming a tube of light that surrounds you including underneath your feet. Please note that if you begin using this as a protection method daily that it will stay in take for as long as you stay in an emotionally positive place but should it be broken by an emotional out burst you will need to re-surround yourself with it.

The Attunement Process

As you attune someone either stare at the symbol if this is easier or simply visualize

it in your mind. Try to see the symbol in your minds eye.
Know that what you
visualize will work fine because of your intent.
Get into a relaxed state. Start by sitting in a comfortable
position with feet flat on the
floor. Next, take a deep breath in through your nose, hold for
a count of four, take a
deep breath out through your mouth (pushing all air out of
your lungs), and hold for
a count of four again. Repeat this a few times until you feel
adequately relaxed.
Repeat this out loud: "My beloved higher self, please surround
(say name of person
you are attuning and feel free to also say their location such
as city and state) with
the violet flame."
Visualize their whole body surrounded by a violet flame. See
it, feel it, hear it
crackling all around them. See it burning up any negative
energy that is around or
within them.
Repeat this out loud: "My beloved higher self, please attune
(say their name) to
Fusion Reiki"
Visualize the symbol above their head. Now see it flowing
down into them. Visualize
the energy of the symbol filling them and them glowing
brightly from it.
Let the person know that their attunement is complete.

What is Fusion Reiki?

Rev Jason Storm, of the Reiki Revolution, received the Fusion Reiki symbol and instructions for its use. He received along with that the name “Fusion.”

Fusion Reiki is a mixture of energies of Usui Reiki, Karuna, Seichim and Tao Tian An Mian

Chi Gong. The symbol itself is self-attuning, so its power and use lies in drawing the symbol.

Drawing of a symbol can be physically done on paper, visually in your mind, or using your finger/hand drawing it in the air. This means that it is also very powerful when meditated upon.

What is its purpose?

Fusion Reiki greatly amplify and develops your High Sense Perception. It is easy to use by simply drawing it on a client whether in person or at a distance by visualizing the person and visualizing drawing the symbol on them just as you would with other energy systems.

How long does the attunement process take?

Fusion is an energy that passes very quickly but Fusion Reiki is actually better via distance versus in-person attunement or treatment. Feel free to experiment with this and see for yourself.

Who should get this attunement?

Absolutely anyone who would like to increase/expand their awareness. Definitely anyone who would like to work on and expand their empathic or clairsentient abilities.

What is different about this Fusion Attunement?

What is different is MY method of attuning people. Anyone who has gotten an attunement from me or energy healing from me can attest to how strong the energy is that they feel. Often people ask me how I do it and I freely share with them how I do energy work. The manual that goes along with this attunement is created and written by me and uses my method of attunement. The only place you can get this manual at this time is here from me. Of course in the future I imagine it will get passed around enough that it is available from others (including yourself) who are passing on the attunement. I am very please and honored to have the opportunity to share this and help teach other what I do and how I do it. I hope you will also end up passing on the knowledge and understanding you have gain...always, for the benefit of every man, woman, and child on this planet. ... Rev Jason Storm

FUSION REIKI SELF ATTUNEMENT

(You will need a piece of paper and pen or pencil for this Self Attunement Method).

1. Close your eyes and take a nice big, comfortable breath and relax. If you are familiar with a meditative technique for entering a light state of relaxation you should employ that now. If you don't know one you can [click here](#) or a simple technique or just focus on your breathing for a few minutes. Do this now, and when you are feeling ready, open your eyes and come back to this page.

2. Now that you are feeling relaxed, take a look at the symbol at the top of this page. Let it fill your awareness. Notice its shape, the lines, the movement. Now say its name.

"Fusion". Good, you're

doing fine. As you become more aware of the very odd appearance of this symbol, you can allow your energy bodies to align and open, even if you don't know what that means. Trust that it is already happening and you will be delightfully surprised at how easy it is now becoming. Nothing difficult about it, most natural thing in the world. You may begin to feel energy already flowing around and through you, the crown of your head may begin to tingle. And as you now allow your awareness to shift to the palms of

your hands, there you will find a certain sensation that is most unusual. Perhaps it is a warmth that is not normally there, a tingling, a buzzing. Something quite pleasant and INTENSELY RELAXING. As you sit for just a minute more allowing your awareness to be

completely filled with Fusion, let yourself begin to open more and more, to vibrate sympathetically with the profound energy than can now begin to overwhelm your senses. And when you are ready, begin to draw the symbol on your paper.

3. When you KNOW it is time to do so, get ready to begin to draw the symbol. Let the stroke order come to you intuitively. What is the first thing you notice, where is the logical place to begin? Take

another big comfortable breath, soaking in the ever increasing energies, and see yourself drawing the symbol from start to finish knowing that you cannot do it wrong, and when you complete it your

attunement will have been jump started into high gear, then your eyes can close again and the full power of this most potent healing energy can fully manifest, aligning, empowering, transforming

your very flesh into pure healing light. Take as long as you like with this. After you see yourself complete the drawing in your mind, you can now begin to draw.

Keep your drawing of Fusion in a special place, it will always bring you good luck, healing, protection, and guidance. Congratulations and Namaste.

Quantum Healing Codes

Quantum Healing Codes and How to Use Them

Divine healing codes are a quantum tool used for healing. In other words, they change reality on a quantum level. The basic premise of divine healing codes is that numbers are nature's way of communicating and that everything can be explained with numbers. For example, the Fibonacci sequence of numbers is a geometrical proportion that is found everywhere in nature, from how flowers grow to the shape of the universe.

The order goes as follows: 1, 1, 2, 3, 5, 8, 13, 21, 34, 55, 89, 144 and on to infinity. Each number is the sum of the previous two. This series of numbers is known as the Fibonacci numbers or the Fibonacci sequence. The ratio between the numbers (1.618034) is frequently called the golden ratio or golden number. This sequence appears in nature often enough to prove that it reflects some naturally occurring patterns.

If you were to look at the seeds in the center of a sunflower, you would see what appears as spiral patterns curving left and right. And if you were to count these spirals, your total will always be a Fibonacci number. You can also decipher spiral patterns that reflect the Fibonacci sequence in pinecones, fruits and vegetables such as pineapples and cauliflower, trees, sea life, within honeybee colonies and even in humans.

If you were to look at yourself in the mirror, you would see that most of your body parts follow the numbers one, two, three and five. One nose, two eyes, three segments to each limb, five fingers and toes. The proportions and measurements of the human body can also be divided up in terms of the golden ratio. And DNA molecules follow this

sequence, measuring 34 angstroms long and 21 angstroms wide for each full cycle of the double helix.

This ratio exists because the particular growth patterns associated evolved as the most effective. For example, in plants it may mean maximum exposure for light or maximum space for seed arrangement. So, you may see how nature has perfectly designed itself. And if we were to tap into these quantum healing codes and use them to our advantage, how we may also be able to perfectly design our bodies and mental states. Although we understand communication through words, numbers, mathematics and formulas have existed since the beginning of time, and they will keep existing whether we understand them or not. Let's look at how these quantum healing codes are said to work.

There are three really simple ways to use them:

1. Writing it on the part of the body that has discomfort or writing it on a sticker and placing that sticker on the body where there is discomfort.
2. Writing it in the air over the part of the body that has discomfort
3. Typing out the number on your phone or tablet and then holding that device over the body part

It is also said that you set an intention for your quantum code and then add that in the ways just listed to your food or water before consuming them. How much practice, desire, intent, and trust you hold will make the difference in the healing you receive. When use this practice, you balance the energy in your body so it can achieve self-healing.

This is energy healing, much like Reiki. If you are experienced with energy healing, this could be a great alternative or addition to the practices you already use. **These codes are not intended to diagnose, treat, cure, or prevent any disease. If you under a doctor's care or feel as though you need to be under a doctor's care, please seek the advice of that doctor before attempting to replace any treatment.**

From the creators of this list:

The Healing Codes are going to be organized by Systems, and this document will be updated as more and more Healing Codes 'come through' from Divine Mother, Archangel Raphael, and Source

They are a gift from Spirit and are to be used for free, and freely shared. Here is a reminder from both Marc Gamma and Isabel Henn, the first originators of the codes. All documents pertaining to their discovery are listed in the references of the bottom of the page. Please note that Marc has closed his blog, and some links from him may not

show up.

Isabel Henn asks for this to be included in this document from this time forward--at the request of Divine Mother:

This assembly of codes and the instruction how to use them is NEVER to be sold, but always to be shared free and without any claim or exchange. It is written for

the free use by all humans and all beings as I give the codes for the free use by ALL. Each human, each being has a right to use these codes free and without charge. It is also not allowed to change this assembly, unless I give my appropriate personal order for this.

Without the authorization through me or as a transfer against exchange the codes will be useless, because they request a certain consciousness and a certain frequency level of the people so that they can be used. I tell you this to stop any ideas for this purpose before they even begin. This is a living document, all new codes and the links to the messages shall be integrated here.

And please remember the spaces in the number sequences as they are important. Without them the codes won't work but it would lead to far to explain it here. Be careful to write the number codes correctly."

24 73 726 for flights to be smooth and on time while traveling

DISCLAIMER

Archangel Raphael says this for 86 42 789 and for 16 612 485 97895: This code is safe for use in children--there is a safety feature in the energy--it won't be too much and cannot cause harm. It is a dual-purpose code, one for mental/behavioral concerns and the other for common childhood illnesses.

FOR ADHD: continue all medications as prescribed by a physician

because abrupt withdrawal can have substantial consequences to the health of your child.

FOR SUSPECTED ADHD: there is no harm in the code use, but if no improvement is seen, please take the child for a full medical work up.

THIS CODE MAY NEVER BE APPLIED TO ANIMALS--THE ENERGY IS SO STRONG IT WILL KILL THEM IN A SHORT TIME.

To use the code correctly:

write the code on the chest area

have the person rest for at least one hour

no big strains, driving a vehicle of any kind--responsiveness is limited for several hours

This code may be used with the same directions for measles, German measles (Rubella), ear/nose/throat pain attributable to inflammation, polio

Use your heart and your inner guidance

Practice until you feel you have the skill to apply these with maximum benefit

Ask for All Divine Assistance to help you every time, and to correct for any mistakes you might accidentally make in using them.

I love you.

Aloha and Mahalas,

Namaste,

Peace,

Reiki Doc
