Commercial Rights & Licensing Verification Statement

To: SoundOn Global Rights & Compliance Team | **Date:** October 23, 2026
Subject: Commercial Distribution Rights Verification for 'I Love You Little Baby' & 'Baby Shark'

To Whom It May Concern,

This document serves as formal attestation and verification of commercial ownership, licensing, and distribution rights for the audio tracks and media assets submitted under the artist project **New Thought Nursery**, legal name **Hali Sarah Parsons**.

Addressing Platform Metadata & Creation Tracking Limitations

We acknowledge that AI-generated audio platforms (such as Suno AI) do not natively embed explicit DAW-style metadata files, exact creation timestamps, or unique track-ID watermarks inside final audio renders. Furthermore, because creators frequently organize or rename audio files locally post-export before final distribution, expecting raw file-creation metadata is technically impractical.

To substantiate the authenticity and commercial legitimacy of these works, verifiable proof of active platform subscription, billing records, and our formal rights attestation are provided below and on the following page.

Summary of Licensing Credentials:

- **Primary Audio Generation Platform:** Suno AI (Active Paid Pro Plan Subscriber, granting full commercial monetization rights).
- **Cloud Storage & Ecosystem:** Google AI / Google One (5 TB / 10 TB ecosystem under Hali Sarah Parsons) utilized for secure project asset archiving, track stems, and workflow management.
- **Commercial Usage Terms:** Under Suno's Terms of Service, paid subscribers maintain full commercial usage and distribution rights for all audio outputs generated during their active subscription period.

Formal Attestation: I certify under penalty of administrative review that all submitted audio assets were generated and licensed lawfully under my active commercial creator accounts.

Sincerely,

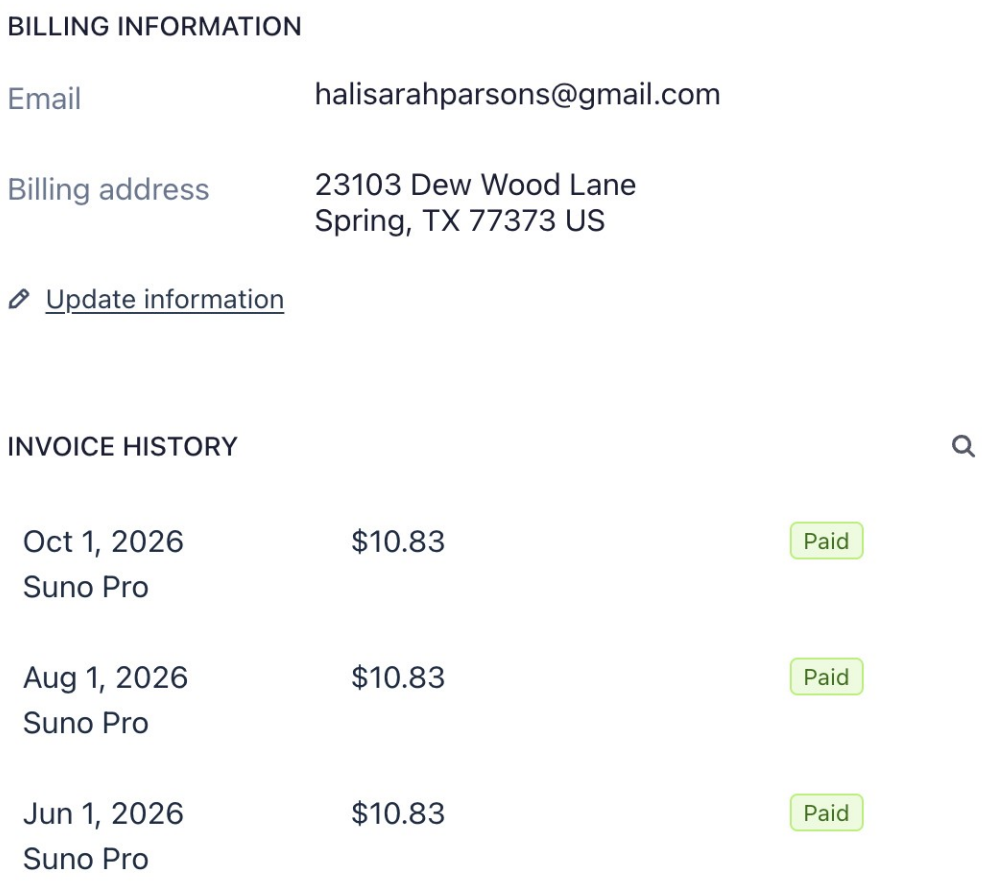

HALI SARAH PARSONS
